Role: This will be used by all users and could be a reusable component.

Backend: The Received objects will be different, but we could use the same table.

Frontend: The Angular Components will have numerous different views based on a variety of roles.

# Current Job Listings

We currently have 65 job listings. Enroll now to see them all.

## Employee Partner Listings

Node.js Developer	Axia	\$50,000
.NET Developer	Geico	\$50,000

## Indeed Listings

Node.js Developer	FooCo	\$50,000
.NET Developer	BarCo	\$50,000

This list will be viewable by many. For applicants, maybe we should have limited visibility, freemium style. The source of this will come from career services listings. This component will be reused from the JobListingsComponent.

## Intro Class Details

Description: Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged. It was popularised in the 1960s with the release of
